

**Patent Claims**

1. Compositions comprising mixtures of  $N^2$ -[1,1-dimethyl-2-(methylsulphonyl)-ethyl]-3-iodo- $N^1$ -{2-methyl-4-[1,2,2,2-tetrafluoro-1-(trifluoromethyl)ethyl]-phenyl}phthalamide of the formula (I)

and at least one of the compounds listed below:

- triflumuron  
 flufenoxuron  
 methoxyfenozide  
 tebufenozide  
 thiacloprid  
 thiamethoxam  
 dinotefuran  
 clothianidin  
 deltamethrin  
 ethiprole  
 fipronil  
 indoxacarb  
 emamectin-benzoate  
 abamectin  
 spinosad.

2. Use of mixtures as defined in Claim 1 for controlling animal pests.

3. Method for controlling animal pests, characterized in that mixtures as defined in Claim 1 are allowed to act on animal pests and/or their habitat.
  4. Process for preparing insecticidal and acaricidal compositions, characterized in that mixtures as defined in Claim 1 are mixed with extenders and/or surfactants.
